

Jaw Pain and Alcohol Use

Research Volunteers Needed

We are conducting a research study on the effects of alcohol consumption on sensory function in **people with jaw pain**.

Participation involves:

- Three laboratory visits
 - Consumption of beverages that may contain alcohol
 - Non-invasive sensory/pain testing
 - Compensation will be provided

To be eligible, you must:

- Be between the ages of 21 and 45
 - Be a current drinker in good physical health
 - Be a non-smoker
 - Have no history of treatment for alcohol or other substance abuse
 - Have experienced jaw pain for 6+ months
